Sir:

In response to the Office Action mailed November 21, 2003, please consider the following remarks:

REMARKS

Applicant acknowledges the withdrawal of the rejections as set forth in paragraphs 2-4 of the Office Action. Applicant also acknowledges that the Examiner's statement in paragraph 6 of the Office Action that the prior art of record fails to teach or suggest the use of base catalysts or the production of reaction products by contacting maleic anhydride-modified polybutadienes, ethylene/vinyl alcohol (EVOH) resin and transition metal compounds. Applicant further acknowledges that claims 14, 44 and 47 have been indicated as allowable, but have been objected to for being dependent on a rejected base claim. As is described in detail below, Applicant respectfully submits that no amendment to the claims is necessary and that all pending claims should be allowed due to the differences between the claimed invention and the applied art.
